

# Maximize Your Real Estate with Choice Property Resources

Did you know you can earn revenue from services your residents already use, like Internet, Wi-Fi, and cable? You can! And the best part? We take care of all the details so you can focus on other priorities.

We help multifamily property owners, managers, and developers find new ways to earn extra income and save money through smarter telecommunication contracts. We're talking thousands of dollars in passive income a year. We analyze, negotiate, and manage customized contracts for residential services to increase your budget and decrease your time spent chasing down vendors.

Let us help you make the most of what you've got and watch the financial benefits roll in.

**68%**

average increase

renewal rate

**\$50**

million generated in  
vendor-paid fees

## What We Do

- Generate ancillary revenue and identify savings opportunities.
- Analyze, negotiate, and manage customized contracts for residential services.
- Ensure residents have access to high-speed internet services and the latest tech.
- Simplify the complexity of multiple vendor offers.
- Represent multifamily developments exclusively. We do not represent vendors.
- Work as a pay-for-performance company, sharing in the revenue we generate.

"The Choice staff effectively filled a need that has brought our properties hundreds of thousands of dollars of ancillary income over our 20-plus year partnership. Our company would never have been able to achieve this result in-house."

Ronald P. Burson, Past President  
Fairfield Housing
